The latest estimate is that we have 109,000,000 people, a considerable percentage of whom are ready to go to Mexico.

We think that South and Central America should realize by now that the United States has no annexation scheme in mind.

Peary continues to pick up a medal now and then, which is doubtless the pleasantest phase of an explorer's life.

Convicts at Sing Sing seem to dislike their environment, yet none of them is anxious to escape from it by the death chair route.

A German scientist says pike in the Rhine have hydrophobia. The prospect of being bitten by a mad fish is one to make the flesh creep.

Three French sailors were eaten by natives of the island of Malekula, New Hebrides, who were probably obsessed with the universal belief that there is nothing like French fare.

## Blood Tonic Has Important Meaning

Puts the Right Sort of Vim Where Most Needed.

To tone the blood means to enable it to throw off accumulated impurities, to increase the red corpuscles and to put the blood-making organs into such active condition as to produce that conscious sensation of what we feel health.

This is the logical effect of using the famous blood tonic known as Dr. Williams' Pink Pills for Pale People.

Half the people who meet complain of weary muscles, stagnant brain, jangled nerves, and a wonderful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the system only to die down again, as they must. Avoid nerve stimulants. Bear in mind that this worn-out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

S. S. S. has long been famous as a blood purifier, and its action by elimination of the irritating poisons that infect the blood is one of the very important things to know. You can get S. S. S. at any drug store, but take no other so-called blood purifier.

S. S. S. is purely a vegetable product, and you will make a great mistake to have some enthusiast palm off a mercury, arsenic or iodine of potash preparation that may do you irreparable harm.

S. S. S. is prepared by The Swift Specific Co., 533 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice. It will be worth your while to do so.

Often a woman's silence is more significant than a man's words.

Some people seem to think a philanthropist merely an easy mark.

A club woman says that the absence of father is a serious menace to the home. In these days and times mother herself isn't always on the job.

An ardent suffragist says there are 22,000,000 reasons why women should have the vote. But all the reasons fortunately are not the clamorous sort.

Old "Doc" Cook thinks the north pole can be reached in an aeroplane. Traveling that way, an explorer would not have to take along many gun drops.

The Louisville Courier-Journal suggests that a war fund be raised by declining to tip waiters and dropping a quarter into the war chest three times a day. A waiters' strike might prove even more troublesome than a little brush with Mexico.

The National German-American alliance has protested to the Senate committee on judiciary against a proposed constitutional amendment for nation-wide prohibition. The prospect of having to go without beer is causing our German citizens acute anxiety.

Representative Moore of Pennsylvania says that what the American people have spent gewgaws in the last five years would have paid for the Panama canal. Perhaps it would, but those gewgaws kept peace in hundreds of American families and thus served a very useful purpose.

While the envoys are trying to work out a mediation scheme they will solve the Mexican problem to the attention of the public is drawn to Colorado, where the miners' strike is accompanied with so much rioting that the President has sent the regulars to support the state troops.

Poets who have to buy coal at this time of the year can't sing of spring with that joyous abandon the season demands.

Dr. Mary Walker says she will go to the front. We trust the situation will not become serious enough to demand her presence at the front.

One thing the Mexican embroglio has done—ambitious boys and girls are looking up information about the unhappy republic, and all bright school children can now enlighten their elders.

MOST WOMEN PREFER TO PLAN AND DO THEIR OWN SEWING

The task of operating a sewing machine by foot soon grows wearisome—sometimes dangerous—even to robust women.

Small, but strong electric motors may now be placed on any sewing machine with a few simple attachments. A light pressure of the foot controls the power and the speed.

The cost of operation about equals that of burning an ordinary 16 candle-power incandescent lamp the same length of time.

The sewing is done with more than twice the rapidity of foot power.

Transform your sewing burden into an easy, swift and pleasant occupation.

Ask our new business department to bring a SEWING MACHINE MOTOR to your home and place it on trial, without obligation on your part.
